WHY GET TRAPT FOR YOUR NEXT TEAM EVENT?

TRAPT is the only dedicated Bar and Escape Room venue in Melbourne's CBD and the perfect place for team-building events, recruitment, corporate functions or any other occasion. Step into our prohibition speakeasy bar and puzzle your way through our infamous escape room experiences.

TRAPT escape room experiences are an ideal opportunity for colleagues to test their boundaries in a fun environment. The underlying skills required to succeed at TRAPT closely resemble those of a corporate environment: navigating uncertainty, meeting deadlines, communicating and working closely together as a team.

Since 2014, we have worked with hundreds of business from across Australia. Our team will work with you to create your perfect event. Whatever you need, we will do our very best to make it happen.

MULTI-DAY EVENTS

With a larger team like that we could offer you the option of splitting your group up over a number of days, there are a number of potential benefits to running your group like this:

- **You to give a larger group the team building benefits of playing an escape room with minimal disruption to your working week.** Having 20 people out of your office each day over 4 days could be significantly less disruptive to your business than having 80 people out of the office for one day.
- **Cater better for groups with flexible working arrangements.** If not all of your staff work from the office on a Wednesday having them attend a team building event on that day could prove challenging for them, spreading them across multiple days will allow those people to not lose extra hours to travel on days they wouldn't normally travel.
- **Shorter lengths of time when groups are out of the office.** Each escape room has limited capacity and our experiences have staggered start times from each other. Once you get a group over a certain size some groups may find the period they have to be out of the office to be too disruptive to their working week. By splitting these groups up over multiple days each days disruption is minimized.
- **Healthy competition!** Spreading groups over multiple days provides a more even playing field for competition. Whether you reduce the number of different themes (and therefore variation in difficulty) or simple because they are all playing at a similar time of day (and as such energy level) spreading the groups out over multiple days means that competition is more accurate. Trapt is happy to track completion times, clues or any other practical metrics that you can think of.

As you can see there are a number of good reasons to run your group like this, is this something that you would consider for your group?
